Jim,

Can you take care of the door frame that was missed at USPS in Oak Creek?

The client was very happy with your guys and their work! Please see below!! Keep up the good work Jim!!

Thank you Steve, it's being processed this week. Chris contacted me and said that your guys did a really good job, that they were quick clean and professional. I don't often get follow-up with compliments, (you know how it is - generally just complaints) so I really appreciate it!

He did mention that they missed the door frame in the clerks' office. Would it be possible to send a guy back over to run a coat of paint over the door frame?

Thanks,

Lindsay Kindlon
